

RAJA MUHAMMAD ZUBAIR

UI/UX Designer & Webflow Developer

+923045626573 | Islamabad, Pakistan | rajazubair.me | rajazubair5626573@gmail.com

PROFESSIONAL SUMMARY

Results-driven UI/UX Designer and Webflow Developer with 3+ years of experience delivering user-centered digital products across web, mobile, and dashboard platforms. Proven track record of collaborating with international clients and agencies to design and develop responsive, high-quality interfaces. Skilled in end-to-end design processes including UX research, wireframing, prototyping, design systems, and Webflow development with CMS integration.

CORE COMPETENCIES

UI/UX Design & Design Systems | Webflow Development & CMS Integration | Responsive Web & Mobile Design | Wireframing, Prototyping & Interaction Design | UX Research & User Flow Optimization | Figma | Client Communication & Design Presentation

WORK EXPERIENCE

UI/UX Designer — Synctom

June 2025 – April 2026

Islamabad, Pakistan

- Designed and delivered multiple client-facing digital products including Axion Lighting (e-commerce website for a lights supplier and renovation brand), CWESD (LMS platform for women's technical entrepreneurship), Synctom agency website, and HomeHeaven (real estate website).
- Developed comprehensive wireframes, interactive prototypes, and scalable design systems in Figma to ensure consistent, user-friendly interfaces across all projects.
- Collaborated directly with stakeholders to present and justify design decisions, resulting in high client satisfaction and effective solutions.
- Managed multiple concurrent projects while maintaining quality standards and meeting all deadlines.

UI/UX Designer & Webflow Developer — Flowcubo

February 2025 - Present

International Agency (Remote)

- Collaborated with an international design agency to create high-fidelity Figma designs and develop fully responsive, production-ready Webflow websites.
- Translated design concepts into pixel-perfect Webflow builds with CMS integration, ensuring smooth handoff and optimal performance.
- Worked within agency-level workflows and quality standards while meeting tight turnaround requirements for international clients.

Freelance UI/UX Designer & Webflow Developer

2022 – Present

Independent Projects & International Clients

- Designed and developed Cyberrey, a professional website for a cybersecurity firm, with a focus on trust-building visual design and clear information architecture.
- Designed and developed Prime Renovations, a home renovation website for an

international client, featuring service showcases and strong conversion-focused layouts.

- Designed and developed a personal portfolio website (rajazubair.me) from scratch, showcasing end-to-end skills from UX design to front-end development.
- Executed multiple personal and exploratory projects to continuously refine skills in interaction design, mobile UX, and Webflow development.
- Designed the Reclaim data recovery app for 9D Technologies, focusing on intuitive UX for non-technical users navigating a complex data recovery workflow.

EDUCATION

Bachelor of Science in Computer Science

2022 – 2026

National University of Modern Languages (NUML), Islamabad, Pakistan
